INSPECTING ELECTRIC STREET CARS.

Pittaburg, June 9 (Special).—A delegation of New York and Brooklyn street car officials to-day made a thorough investigation of the workings of the Observa-tory Hill Electric Railway, in Allegheny City. The party consisted of President D. E. Lewis, of Brooklyn; Superintendent Moore, of the Sixth-ava. line; President A. Raymond, of the Fulton-st. line; S. B. Chittenden, of the Brooklyn Heights road, Superintendent W. H. Delaney, of the Pulton-st.. line; Howard Constable, Frestdent Foster, of the Forty secondst. line; A. J. Hutchinson and F. W. Child. Delaney, who is an electrical engineer, stated that the 121-2 per cent grade at the base of the hill was not only the steepest grade ever ascended by an electric car but was really equal to a 16 per cent grade owing to the sharpness of the curve.

A YOUNG CURATES ROMANCE.

Chicago, June 9 (Special).-A very romantic story concerning a couple living at Englewood, a suburb, has come to light. The young man is the son of an Episcopal rector in Yorkshire, England, and he for a time was curate of the parish. Adjoining his home a landed proprietor, one Molineux, of French descent lived. He was a Catholic. The young clergyman fell in love with Mr. Molineux's daughter and proposed for her hand, offering-on account of the Mollneux prejudices-to resign his curacy, but the father drove him from the premises. The daughter was sent away where he could not find her. The young ourate, heart-broken, gave up his work and caze to America, obtaining a situation as bookkeer in a New-York wholesale house. He was made travelling salesman. One day, while in Quebec, he was run down by a heavy omnibus, picked up and conveyed to a hospital. One day he discovered that one of the Sisters of Charity in the hospital was none other than the girl he had loved in Yorkshire. When the young man recovered he persuades the nun to fly with him. They came directly to Chicago. Miss Mollocus's parents had sent her to a convent in France, and from there she was tronsferred with other French nuns to Quebec. while in Quebec, he was run down by a heavy omnibus,

THE SALVATION ARMY'S NEW HEADQUARTERS. The rank and file of the Salvation Army are in exuberant spirits, now that they have a "National Headquarters" nearer the North River front, where they expect to carry on their conversion with renewed vigor. Yesterday they had a semi-jubilee over the hoisting of a Salvation Army had a semi-jubilee over the noisting of a Salvaton Army flag at the top of a 47-foot pole on their new headquarters at West Broadway and Reade-st. It is a large and commo-dious building, with five roomy floors, is built of Philadei-sals and brick, and relieved by freestone. The building

is in good view from the river front, the elevated railroads and the surface cars on West Broadway.

BITS OF PRESIDENTIAL GOSSIP.

Senator M. S. Quay, of Pennsylvania, was at the Fifth Avenue Hotel yesterday, on his way to West Point, to be present at the graduation of his son. enator Quay is an affable and agreeable gentleman. and talks earnestly about his political preferring convictions as re-ards the Republican Presidential nomination. He said among other things:

Senator Sherman will receive a large vote from Pennsylvania, just how large it is impossible to say until we get together at Chicago. There have been no conferences or consultations as yet. It is only when the delegates have come together that you can make any definite estimate. I think the Senator will have upward of forty votes. It is not impossible State should cast a solid vote for him, but it is not anticipated."

Could Blaine now be renominated !" "Not in the face of his Paris letter unless all the other candidates should have withdrawn and asked him to come in. No, there is no possibility of Mr. Blaine's nomination now."

"Can Mr. Sherman carry New-York?" "Can anybody carry it? My idea of this campaign is that it will be fought out on principle, and that the mineo's personality will make less impression one other than since 1860, provided only tha he shall be clean, honest, able and wholly representative, as John Sherman undoubtedly and admittedly is. the issue clearly drawn, the fight will be on principle The men who have been unjustly turned out of office the veterans of the war, the Protective Tariff Democrats and the dissatisfied Democrats make up an army of workers who will offset the Federal ces twice over in zeal, efficiency and capable political action. With these elements and the Republican organization, Mr. Cleveland can be defeated by any leading representative Repu'llean. Senator Sherman is the type of the party and I think should and will be nominated." Senator Quay is coming back here

early this week for a conference with Senator Platt. Senator Sherman went back to Washington yesterday afternoon. His companion on the trip Senator Hiscock. The Ohioan's political friend, ex-Governor Foster, left the city for Fosteria last night. Before going he said :

"I regard Senator Sherman's prospects as splendid -indeed, I think he will be nominated. I am aware of course that there are dangers in his way, because he is the leading candidate, but I do not think they will defeat him. He has been prudent in all things in his attitude as to the nomination and especially toward Mr. Blaine. He sent word to Mr. Blaine through Mr. Halstead that he would not be a candithe nomination against him. He can be nominated and elected, and I think he will be."

Senator Cullom, of Illinois, was in New-York yes terday on his way back to Washington from West He smeked a cigar with Senator Sherman at the Fifth Avenue Hotel, chatted with the politicians the corner in the free and easy Western manner, and bore himself generally like a man who would not object to having Presidential lightning strike him. He was chary of any expression about the Chicago Convention, but from some of his expressions it was learned that his friends think it wise to have Illino solid for Gresham, in order to keep it solid for Cullom at a later time in the balloting than the first day's voting which period they are confident will not bring about a nomination. Speaking of the general situation, Senator Cullom said:

Democratic indifference and listlessness is every where so plainly indicated that only a blind man would profess to think there is a chance of Demo cratic success. It is inevitable that we shall elect our ticket if no blunders are made. The solid South will meet with a responsive solid North this year, beyoud any question. They climbed into the saddle too quickly with their free-trade spurs. I believe we will carry every Northern State. Oregon has indicated the drift, and the rejection of Governor Gray in the Democratic National Convention makes us sure of Indiana."

An official connected with the War Department a Washington, who came to New-York yesterday, said: "I have never witnessed anything so scandalous in "I have never witnessed anything so scandalous in my whole official life as I have in the three days of the Democratic Corvention at St. Louis. You could have made no mistake about this being a Democratic Administration if you had been in Washington. At the State, War and Navy buildings the telegraph lines were entirely taken up by news from St. Louis so that telegrams on public business could not be sent. Crowds of "reform" office holders were gathered about the doors of the various telegraph offices, and manifold copies of each telegram were sent as soon as received to all the dignitaries who felt too big to be recognized in the crowd."

MITKIEWICZ AND WHARTON BARKER. WHAT IS SAID IN PHILADELPHIA OF THE "COUNT'S SUIT.

Philadelphia, June 9 (Special).—There was but one theme of conversation on Third-st. to-day, and that was the suit against Wharton Barker by "Count" Mitkiewicz. Mr. Barker positively refused to see newspaper men, or talk on the subject of the suit. One of the subscribers to the \$100,000 " blind peol," who was less reticent than Mr. Barker, said to-day :

"Barker has the 'Count' on the hip. Barker has receipts from him for all the money he spent in China. We never agreed to give what he claims. He was to get nothing except a cash consideration for his ser vices and a small interest in the companies. Do you suppose we would give a fellow like that such a big silice? Not much. His charges are all 'rot,' and I guess they will be news to many of the gentlemen whose names he uses. Has the scheme failed well, no. I can't say that it has. We are still a work, but of course Mitkiewicz is not with us, and till we are quite through, we can't tell the public just where the corcessions stand. You can say, however, that the negotiations have not ended, and we expect to put the scheme through yet. I don't know what Mr. Barker intends to do about the 'Count's' suit. don't suppose he will pay any attention to it." A prom inent business man, one of the ten in the pool," made a statement this afternoon which throws some light on the affair. He said that the Chinese Government refused some time ago to have anything to do with the Americans unless they parted company with "Count" Eugene Mitklewicz. Wharton Barker who is the head and front of the syndicate, called th members together and stated the case plainly to them. He proposed that the members sign a paper trans ferring the r interests to him so he could start fresh and secure concessions from the Chinese. This was agreed to, but the "Count" refused to enter into such an agreement and placed every obstacle he could be seen that the second secure of the second second secure of the second s the way of its consummation. Finally he sent, r. Payne, his representative, to this city. Marker, related to see Mr. Payne, or to listen to his oppositions, and the "Count" began suit.

EVANGELISTIC SERVICES FOR YOUNG MEN. A series of evangelistic meetings for young men was begun yesterday in Assoc ation Hall and will continue for one month. They are under the leadership of J. W. Dean, the former State secretary of the association of Iowa. Mr. Dean has been engaged in evangelistic work for a number of years, having his headquarters in Chicago. Last winter, under the auspices of of the New-York State Evangelistic Committee, he held a series of meetings in a number of places in this State, including Cohoes, Troy, Glencoe and has just closed a successful work in Buffalo, where there were many conversions. Hatheway, R. C. Ogden James A. Robinson, B. G. Ripley, R. A. Robbins, Edward E. Eames, Albert Flagler and John H. Woodhouse.

TRUSTS TO BE INVESTIGATED.

The impression has become prevalent that the Genera Laws Committee of the Senate has discontinued its in vestigations of trusts and "combines" because of the failure to pass Senator Low's resolution empowering the committee to continue the investigations. This is not the fact; Senator Low's resolution passed, and the committee was authorized to sit during the summer and hear testimony on the formation and operation of trusts. The committee will continue the work some time this summer. committee will continue the work some time this summer, probably in August, but it may be delayed until September. The committee will probably begin in Buralo, with the grain elevator charges at that port. The committee consists of Senator Arnold, chairman; Coggeshall, Walker and O'Connor, Republicans, and Linson, Ives and Langbein, Democrats. The committee will report at the next session of the Legislature a bill which will be aimed at illegal trusts and combinations. at illegal trusts and combinations.

The "Queen's Ma'e." at the beautiful Broadway Theatre, is established on a permanent basis of pros perity. In its composition all the elements which gratify promiscuous audiences have been utilized with great skill. Handsome souvenirs will be presented to each person attending on that evening.

Frank Cushman, who played the negro part Natural Gas," has been replaced by Hugh Dougherty, he minstrel. Mr. Cushman was missing last Monday, without giving his managers any notice. The warm weather of the last few days sent swarms of people to Erastina, Staten Island, to enjoy in the oper air the novel and exciting performances of Buffalo Bill's great Wild West exhibition. The few wiseacres prognosticated that Mr. Cody's succ would not equal his previous season's triumph, would confess themselves grievously in error could they see the delighted thousands who daily and nightly find their way to Erastina. The performances seem to possess a peculiar fascination for the public, as the same faces are seen repeatedly in attendance. sail across the bay is refreshing, the fare is reasonable, and the boat accommodations are ample. The exhibition is clean and novel. The new bucking horses are sending some of the cowboys and expert riders to the hospital repeatedly, so fiercely do they behave, and any one who has an idea that they are trained to buck may have a chance to try his skill. The camp will be open to-day from 11 a. m. till 5 p. m., to enable the public to observe just how Sunday is kept on the frontier. The admission on Sundays is half that on other days,

The new stage at St. George has been completed, and is said to be the largest in the world. It is 462 feet wide, by 380 feet deep, and is much nearer the audience than tast season. The scepery, a good deal of which is built in a realistic fashion, showing palaces, temples and public buildings, three and four stories high, will be moved by machinery on circular rallways, 900 feet long. There is no notice of a change at Wallack's Theatre and no possibility of one for weeks to come, as Sydney Rosenfeld's comic opera, "The Lady or The Tiger," as presented by the McCaull Company, is drawing crowded houses and gives promise of continued success. During the warm weather the cooling apparatus is put in motion with most satisfac tory results.

THE CASHIER STILL MISSING.

TOBIAS & CO NOT DISTRESSED-WISCHER'S WIFE SAID TO HAV" JOINED HIM IN CANADA. flight of Rhinehardt Wischer, eashier of the firm of C. Toblas & Co., though alleged to entail a loss of some \$10,000 to his employers, does not seem to have made a very serious impression either upon them or his immediate family. Mr. Tobias said to a Tribune reporter yesterday: "Wischer was foolish to run away to Canada and make a criminal of himself. He had plenty of friends among business men here who would have helped him out of his trouble. When the reporter asked if the firm would not have had him put in prison if he had remained here, Mr. Tobias replied, "Well, perhaps."

It was learned that Wischer is about thirty-eight years old, of medium height, rather slender build and light complexion. He is a native of Hamburg and has been in this country about sixteen years. The wife and children of Wischer moved from thet

former house in Eghth-st., Brooklyn, about a week the took a small flat on floor of a new apartment house in Fifth-ave. in same city. On inquiring there yesterday The Tribune reporter was informed by the agent that Mrs. Wischer had gone to Canada last Monday or Tuesday to join her husband. She paid a month's rent in advance, and seemed to have plenty of money. Her three little cirls, ranging in age from about six to twelve years, are stopping there with their mother's sister, who told the reporter that Mr. Wischer was an excellent husband and father, and that the only reason she could ascribe for his conducwas that he could not live on the \$2,000 salary he received from Tobias & Co. She did not believe that he was in Canada or that his wife had gone there. She also said the sum alleged to have been taken was greatly exaggerated; that Wischer had gone away with "only a paltry \$200 or \$300," and that it was only a breach of trust anyhow. The exact an of the shortage on the books of Tobias & Co. ha yet been ascertained, but it will approach the figural already given. The last "take" is said to have bee a day or two before Wischer's disappearance, and have amounted to nearly \$700.

HOW SOUTHERN REPUBLICANS FEEL. THEY WILL VOTE FOR ANY MAN THAT CAN BE

AGREED ON HERE Ex-Senator William Pitt Kellogg, of Louisiana, who s one of the delegates-at-large from that State to the Republican National Convenion at Chicago, is a guest at the Fifth Avenue Hotel. He came from Wa ton to see a friend off for Europe, but left New Orleans two weeks ago. He started for Chicago yes terday to confer with a number of Southern dele gates who are going there in advance of the conven tion. When asked about the Louisiana delegates

Senator Kellogg replied: We are all at sea since Mr. Blaine's last letter came out. It is a condition of perplexity, doubt and anxiety all around, now that he is out of the way. I guess, after all, the best thing that the other candidates can do is to get out of the way, too, and let us nominate him by acclamation. There is no positive drift to any other man yet, so far as our delega-Connecticut delegates will present a man and say he can carry those States, he can get most of the votes of the Southern States. In Louislana a few delegates are now for Sherman, but everywhere they are desirous to know what these three States want. If they can agree on any man he can have the nomination. I do not see how we can nominate Mr. Blaine after his last letter. Of course there will be some votes cast for him anyhow. If all the candidates should pull out and ask him to come in, that would bring him. But they are human beings and not likely to do that." can carry those States, he can get most of the vote

YALE BEATEN BY HARVARD.

THE SCORE STOOD SEVEN RUNS TO THREE. RUNS MADE IN THE FIRST, SECOND, FOURTH, FIFTH, SIXTH AND SEVENTH INNINGS.

Boston, June 9 (Special).—Holmes Field was the ball this afternoon. The periodical meeting of Harvard and Yale on the diamond always excites great interest not only in the breasts of the members of the two colleges, but also in the crantum of every single baseball "crank" in the community. To-day's game, as usual, drew together about 3,000 people, many of them ladies, whose pretty parasols, decorated with the blue or the crimson, did much , to enliven the field. There was a good deal of cheering, but rather less than on former occasions. There was a goodly contingent from Yale present to cheer up the drooping spirits of her losing men. The game was well played o Bates for Harvard, and both sides, the two pitchers. Stagg of Yale, did great work, the former striking out ten men and the latter eleven men. Henshaw, Harvard's catchet, did splendid work. Dann, who caught for the Yale men, did well after the third inning, but previous to that made several costly errors. The batting was Harvard showed great weakness in that part of the game, and Yale wasted strength by not bunching hits. Once or twice when this was done, scoring was prevented by Harvard's fine fielding, which was much better than Yale's. Stagg only gave Harvard five hits, while Bates allowed the men in blue to have nine. Yale made twelve errors, while Harvard only made six. The game was called promptly at 3 o'clock and lasted two hours and fifty ninutes. The umpire was McLean. The score by nnings was:

Harvard . . . 1 4 0 1 0 1 0 0 0-7 The first half of the first inning opened with Campbell, of Harvard, at the bat. He had two strikes when he put the ball in between second and third bases and got to first. Gallivan came to the bat and knocked a fly that was caught by Walker. Boyden was put out on a tender ball to first. Campbell came home on a wild throw by Dann. Henshaw struck the side out.

When Harvard came to the bat in the next inning Willard knocked an easy one into the third baseman who threw wildly to first and gave him his base Knowlton then sent a hit in right field and Willard went to second. Quackenboss sent a ball to third, but it was fumbled and the men moved up a base. Howland struck out. Stagg made a wild pitch and let Willard in. Campbell sent a little ball to third base. Noyes made a wild throw and let the men before on bases in, and sent Campbell to third. Dann tried to catch him napping at third and let him score on a wild throw Gallivan let the side out. The fourth inning opened with Knowlton at the bat.

He sent a fly into left field, but McConkey muffed it letting the runner get to second. Stagg made a wild pitch and let Knowlton score. In the fifth inning Yale put Dann at the

bat. He made a pretty hit into field. Hunt knocked a series of fouls for fun and then sent a fly that was caught by Gallivan. McBride sent the ball to right field and let Dann to second. Both men moved up on a wild pitch while Stewart was at the bat. A wild pitch let the Two men on bases in.

The sixth liming saw knowlton at the plate. He was caught out on a fly by centre field. Quackenboss sent a daisy clipper into left field and took first. Howland sent a drive into centre and sent Quackenboss

nome.

In the seventh inning started by Boyden, who was caught out by McConkey, Henshaw was caught out on a foul. Willard struck out. Yale was represented next by Dann. THE STATE OF COLOMBIA WINS. Justice O'Brien, of the Supreme Court, has decided, in the suit of the United States of Colombia against Benjamin A. Gaitan, that the defendant must account for the moneys of the Colombian insurgents, with which he was sent to this country in 1885, to buy arms and munitions of war. He says that all property in the hands of insurgents or their agents be came the property of the plaintiff on the suppression of the rebellion in September, 1885. He holds that the Colombian Government is entitled to an accounter from Galtan and that the defendant must be credite with all expenditures made in good faith prior to the suppression of the rebellion.

THE EXCURSION SEASON BEGUN IN EARNESS. That the tide of excursion travel has begun is shown by the patronage given the Iron Steamboat Company and already the number of passengers carried exceeds and already the humber of passages are the last year's record for the same number of days since the opening. There are boats every hour from 3 1 m unit 6 p. m. from West Twenty-third-st. and Pier new Sa I. NEWS FROM THE FIELD AND RANGE OF PRICES The crude certificate market yesterday was dull as heavy. The result was that the latter found encouragement to do some hamments was not favorable. that the latter found encouragement to do some hammens in the late Jealings. The field nows was not favorable. The gauge of the Washington pool showed a yield of also barrels per hour less than the day previous, but the J. F.
